SOLID HARDWOOD

Made in the USA — Live Edge Kiln Dried

For over 170 years and through five generations of family ownership, Harden Furniture has upheld a tradition of environmental stewardship. By employing its own Forestry Team and adhering to environmentally-sound principles and proven silviculture methods,

Harden has been practicing responsible environmental policy since before the Industrial Revolution. As the family legacy endures, Harden Furniture continues to grow and change in order to best serve those customers who desire fine furniture from generation to generation...at just the right value.
