*From timeless to fun to elegant to clean*

With more than 150 years of history as a maker of fine solid-wood pieces, Nichols & Stone is the oldest furniture-building company in the United States.

Today, the firm is a leader at producing handsome, comfortable styles, with durable finishes, for an affordable price.

Using hard northern birch and maple, Nichols & Stone creates a variety of looks, spanning from traditional to sleek contemporary — including its trademark dining furniture, beloved Windsor chairs, and Williamsburg bedroom sets.
