EXCELLENCE

Artistry of custom designs & finishes

Woodland Furniture was started in 1996 by Lynn and Pat Harker, in Idaho Falls, Idaho. It was Pat Harker who inspired the reasoning behind Woodland Furniture. She knew that if she could find a resource that followed these four simple ideals...

- Serve the interior design community with high quality products
- Back the product with world class service
- Deliver in under 12 weeks
- Charge a fair price

...then she would have found an ideal company for her own design firm to shop, but also that every designer would recognize the value as well. Woodland was created with this goal.
